

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	2 July 2026
Team ID	
Project Name	Library Book Request System using ServiceNow
Maximum Marks	4 Marks

NFR Non-Functional No. Requirement

Description

NFR-1 Usability

The application should have a simple and user-friendly interface.

NFR-2 Security

Only authorized users should be able to access and manage request records.

NFR-3 Reliability

The system should process and save requests without errors.

NFR-4 Performance

Book requests should be submitted and processed quickly.

NFR-5 Availability

The application should be available whenever users need to access it.

NFR-6 Scalability	The system should support an increasing number of book requests in the future.
-------------------	--

Functional Requirements

FR Functional Requirement

Sub Requirement (Story / Sub-Task)

No. (Epic)

FR-1 Book Request	Student can submit a library book request through the ServiceNow form.
FR-2 Issue Date Validation	System validates that the issue date is not in the past.
Request Number	System automatically generates a unique request number (e.g., LIB1001).
FR-3	
Generation	
FR-4 Email Notification	System sends an email notification to the librarian when a request is submitted.
FR-5 Request Management	Librarian can view and manage all submitted book requests.
FR-6 Record Storage	System stores all request details securely in the Library Book Request table.

Non-functional Requirements
